

## GIFT-FOWG workshop: OGP Fiscal Transparency Commitments

---

### Public participation proposal

#### - Plans to implement fiscal transparency commitments in their next national action plans

- Proposal for a new budgetary technical body from the legislative power in Mexico  
Propose the existence of a unit specialized in budgetary issues, as permanent Support of the Legislative Power, in order for the legislators to have accurate, complete and timely information. At the same time, encouraging transparency contributes to the verification of the expenditure. Currently, the fact that the information is not known and not processed produces negative incentives

- Initiative to reform the Article 42 of the Federal Law for Budget and Treasury Responsibility (Ley federal de Presupuesto y Responsabilidad Hacendaria)

An initiative meant to promote that the Budget and Treasury Commission open spaces, both online and on-site, to encourage the public involvement.

For many years, constant efforts have been made to strengthen the transparency and access to the information in the governance, however, we know such efforts have been important but not enough, today we are promoting this initiative with project to become decree, that encourages the public involvement in the budgetary processes, in order to provide more certainty and transparency in said processes.
